Introduction to Electronic Cigarettes, Cigars and Pipes

Electronic Cigarettes, also known as e-cigs are an electronic version of a cigarette. Similarly, Electronic Cigars and Pipes are electronic versions of traditional cigars / pipes. Electronic cigarettes come in various sizes, from slightly longer than a traditional cigarette to newer devices, which can be smaller than traditional cigarettes. The devices are made up of up to three parts – the mouthpiece (containing the cartridge), an atomizer (the middle part), and the battery (rechargeable). Some models have combined the battery and the atomizer into a single unit, resulting in a two piece design.

The mouthpiece of the device contains a replaceable cartridge filled with a liquid containing primarily water, propylene glycol, nicotine, and a scent that emulates a tobacco flavor. When the user inhales through the device, the airflow is detected by a sensor. The atomizer is then activated which injects tiny droplets from the liquid in the cartridge into the flowing air. This produces the vapor mist inhaled by the user. The microprocessor responsible for activating the atomizer also activates an LED (usually orange or red) at the tip of the battery to simulate real smoking.

Benefits of Electronic Cigarettes / Cigars

Electronic cigarettes and cigars are used much like their traditional counterparts. They look, feel, and taste like a regular cigarette or cigar, delivering the pleasures of smoking without the problems. Electronic cigarettes provide the tactile and craving satisfactions traditional smokers seek, while producing a vapor mist that harmlessly evaporates into the air within a few seconds. Some of the many benefits include:

- ❖ Replication of the behavioral and physical pleasures associated with smoking
- ❖ Virtually odorless – emits a harmless vapor that evaporates within seconds
- ❖ Smoke it anywhere, anytime – not governed by anti-smoking laws
- ❖ No second hand smoke – not offensive to others
- ❖ Contains no carcinogens – much safer than tobacco
- ❖ Costs much less than tobacco smoking
- ❖ Tastes like tobacco, but contains no tobacco
- ❖ Safe and easy to use – non-flammable
- ❖ Satisfies nicotine cravings – can be used to aid in the withdrawal from traditional tobacco

Replacement Cartridges

Each Electronic Cigarette, Electronic Cigar, and Electronic Pipe Starter Kit contains a number of starter cartridges (see the individual Starter Kit description below for details). There are four (4) types of cartridges available for a given electronic cigarette, based upon flavor / nicotine concentration. The relative nicotine levels for each cartridge type are 18g/1000g (high), 14g/1000g (medium), 11g/1000g (low), and zero per 1000g (none).

Replacement cartridges come in several flavors. These flavors are meant to emulate or resemble known brands. These include Marlboro, 555, Cherry, and Mint. The capacity of the cartridges varies based upon the size of the device. The larger devices can carry more liquid and last longer. The estimated number of drags expected for each cartridge is shown in the product descriptions below. To compare with a traditional cigarette, one cigarette can deliver 15 drags. With 20 cigarettes per packet, each packet is capable of approximately 600 drags. The expected shelf life for the unopened cartridge packs is between 1 and 3 months depending upon storage condition. When stored in a dark and dry place, they can be expected to stay fresh for the full 3 months.

NOTE: The starter Kits below list the standard combination of flavors and nicotine concentrations. These can be changed upon request. In addition to the replacement cartridge flavors for electronic cigarettes listed later in this catalog, the following flavors are available upon request: Cigar, Panax, Pineapple, Peach, Coffee, Vanilla, and Strawberry.

Custom Colors / Packaging

Electronic cigarettes are available in a wide range of colors and designs. Many refill cartridges can be ordered in a range of standard colors (see picture to the right). Any custom color can also be produced to your specification. Contact your Jade Connections sales representative for specific information related to your electronic cigarette model and quantity needed for a precise price quote.

Like the refill cartridges, the main body of the electronic cigarette (battery module) can be custom printed in whatever colors and designs you need. See the picture to the below for some sample ideas.

Depending upon the model, some standard designs may be available. Please contact your Jade Connections sales representative for additional options.

All electronic cigarette, cigar, and pipe products come standard in attractive un-branded packaging. If you need custom labeling, or packaging to promote your brand or label, Jade Connections will work with you to provide whatever packaging you need.

If you have your own design house, Jade Connections will work with them and coordinate with local packaging manufacturers. Jade Connections can also provide whatever design services you need, from simple reprinting of existing packaging, to a complete custom design based on your specifications. Please consult with your Jade Connection sales representative for more information and pricing. Custom packaging is attractively priced. Depending on the nature of the custom printing / packaging and order volume, often it is possible to incorporate custom changes at no additional cost.

Starter Kits

ECC-1000 – 155 mm Electronic Cigarette Starter Kit: Brown/Blue Packaging

The ECC-1000 153 mm Electronic Cigarette Starter Kit includes one atomizer pole, two batteries, battery charger, and 5 liquid cartridges (customer choice of type). Packed in your choice of an attractive brown or blue gift box.

Packaging	
Box: Black Gift – 25.8 x 15 x 6.5 cm	
Device Weight / Size: 115 g / 156 mm	
Carton Size: 52 x 32 x 28 cm, 16 pcs/ctn	
Carton Weight: GW: 12.0 kg	

Certifications	
CE, RoHS, SGS	

Atomized Liquid Cartridges	
Total Pieces	3
High Nicotine Liquid	1
Medium Nicotine Liquid	1
Low Nicotine Liquid	1
No Nicotine Liquid	0
Flavor Emulation	Marlboro
Approx drags/cartridge	700 - 900
Shelf Life	1-3 months

Warranty Terms	
12 months after delivery from factory for battery, atomizer and charger. Defective units will be replaced free, customer only pays return shipping charges.	

Refill Cartridges

ECC-3000 – Refill Cartridges – 1000 Electronic Cigarettes

The ECC-3000 Refill Cartridges work in the ECC-1000 Electronic Cigarettes (except the Mini Cigarettes). They are available in any flavor and nicotine concentration combination. Each refill cartridge packet contains 5 refill cartridges.

Note: When ordering, be sure to add the H/M/L/N (High/Medium/Low/None) suffix to the part number to specify the concentration. For instance the Cherry Low Concentration part number would be ECC-3000-03L.

Packaging
Body Size: 25 x 9.3 mm
Packet Weight: 23.29 g
Carton Size: 41.3 x 38.3 x 26.9 cm, 400 packets/ctn
Carton Weight NW/GW: 10.9 / 11.5 kg
Shelf Life: 1 – 3 months

Replacement Accessories

ECC-4210 – Replacement Battery Charger – ECC-1000 Electronic Cigarette

The ECC-4210 Replacement Battery Charger works with all ECC-1000 Electronic Cigarettes (except the Mini Cigarettes). It is a direct replacement for the charger included with the ECC-1000 Starter Kit.

Order Number	Plug Type	
ECC-4210-A	A	
ECC-4210-C	C	
ECC-4210-G	G	

Unit Weight: 91.3 g

Input Voltage: 110 – 240 VAC,
50/60 Hz

Certifications: CE

ECC-4220 – Replacement Battery Charger – ECC-1100 Mini Electronic Cigarette

The ECC-4220 Replacement Battery Charger works with the ECC-1100 Mini Electronic Cigarette Starter Kit.

Order Number	Plug Type	
ECC-4220-A	A	
ECC-4220-C	C	
ECC-4220-G	G	

Unit Weight: 91.3 g

Input Voltage: 110 – 240 VAC,
50/60 Hz

Certifications: CE

ECC-4221 – Replacement Battery Charger – ECC-1101 Mini Electronic Cigarette

The ECC-4221 Replacement Battery Charger works with the ECC-1101, ECC-1102, and ECC-1100 Mini Electronic Cigarette Starter Kits.

Order Number	Plug Type	
ECC-4221-A	A	
ECC-4221-C	C	
ECC-4221-G	G	

Unit Weight: 91.3 g

Input Voltage: 110 – 240 VAC,
50/60 Hz

Certifications: CE

ECC-4222 – Replacement Battery Charger – ECC-1200 / 1201 Short Mini Electronic Cigarette

The ECC-4222 Replacement Battery Charger works with the ECC-1200 and ECC-1201 Short Mini Electronic Cigarette Starter Kits.

Order Number	Plug Type	
ECC-4222-A	A	
ECC-4222-C	C	
ECC-4222-G	G	

Unit Weight: 91.3 g

Input Voltage: 110 – 240 VAC,
50/60 Hz

Certifications: CE

ECC-4223 – Replacement Battery Charger – ECC-1202 Short Mini Electronic Cigarette

The ECC-4223 Replacement Battery Charger works with the ECC-1202 Short Mini Electronic Cigarette Starter Kits.

Order Number	Plug Type	
ECC-4223-A	A	
ECC-4223-C	C	
ECC-4223-G	G	

Unit Weight: 91.3 g

Input Voltage: 110 – 240 VAC,
50/60 Hz

Certifications: CE

ECC-4224 – Replacement Home Battery Charger – ECC-1300 Short Mini 84 mm Electronic Cigarette

The ECC-4224 Replacement Battery Charger works with the ECC-1300 Short Mini 84 mm Electronic Cigarette Starter Kits.

Order Number	Plug Type	
ECC-4224-A	A	
ECC-4224-C	C	
ECC-4224-G	G	

Unit Weight: 91.3 g

Input Voltage: 110 – 240 VAC,
50/60 Hz

Certifications: CE

ECC-4225 – Replacement USB Battery Charger Cable – ECC-1301 Short Mini 84 mm Electronic Cigarette

The ECC-4225 Replacement Battery Charger works with the ECC-1300 and ECC-1301 Short Mini 84 mm Electronic Cigarette Starter Kits.

Unit Weight: 25g

ECC-4226 – Car Battery Charger – ECC-1300 / 1301 Short Mini 84 mm Electronic Cigarette

The ECC-4226 Car Battery Charger works with the ECC-1300 and ECC-1301 Short Mini 84 mm Electronic Cigarette Starter Kits.

NOTE: The ECC-4226 Car Battery Charger requires the home battery charger (ECC-4224 or supplied charger with ECC-1300) in order to operate. ECC-1301 customers need to order both the ECC-4224 and ECC-4226 for a working solution.

Unit Weight: 44.1g

ECC-4230 – ECC-2000 Series Replacement Battery Charger – Electronic Cigar

The ECC-4230 Replacement Battery Charger works with all ECC-2000 Electronic Cigars.

Order Number	Plug Type	
ECC-4230-A	A	
ECC-4230-C	C	
ECC-4230-G	G	

Unit Weight: 91.3 g

Input Voltage: 110 – 240 VAC,
50/60 Hz

Certifications: CE

ECC-4501 – ECC-1000 Electronic Cigarettes Carrying Case – Leather Feel

The ECC-4501 Carrying Case is designed to work with the ECC-1000 Electronic Cigarettes. Can carry 2 batteries, 1 atomizer/cartridge, and 1 spare cartridge.

NOTE: molded insert can be changed to accommodate other cigarette sizes for order quantities of MOQ or greater.

Order Number	Case Color
ECC-4501-P	Pink
ECC-4501-B	Black
